SUZOHAPP to exhibit its complete components offering at Vendibérica

New Components website will be launched

DE MEERN, THE NETHERLANDS, November 6, 2019 - SUZOHAPP – a global market leader in payment systems and cash management solutions – will be exhibiting at the upcoming Vendibérica in Madrid from November 13-15 at booth #7C17. SUZOHAPP will be showing its complete offering of components for vending machines, including coin validators and recyclers, bill validators, cashless systems, LCD monitors, locks, pushbuttons and more.

“With our wide range of products, we are able to provide every single component that fits into a vending machine,” says Francois Profit, SUZOHAPP’s Executive Vice President of Automated Services in Europe. “We have become a one-stop-shop for operators, allowing us to help our customers significantly streamline their sourcing operations.”

At this year’s Vendibérica, SUZOHAPP will be showcasing some of its most popular products, including the ideal combination of payment systems for all vending machines: the **Currenza C²** coin recycler, the **Vantage** banknote reader and the **WorldKey** cashless solution. The company will also be presenting its latest innovation - the new **E-PRL**, a patented high-tech locking system which offers more than 10 billion possible combinations. The E-PRL is now available in a Bluetooth version which allows operators to have online control of all their locks from a remote location, even from a smartphone or a tablet.

Additional key products on display include the RM5 HD and RM5 Evolution coin validators, the Newland barcode scanners, a wide range of high-quality Touch and Non-Touch LCD monitors featuring proven brands, such as Elo Touch Solutions and VisionPro™, as well as a rich selection of vending machine parts, such as power supplies, pushbuttons, door switches and more.

SUZOHAPP will also be launching its **new Components website**, created with the needs of its Vending customers in mind. With an intuitive design and a vast amount of content, customers will be able to find the information they need quickly and connect to sales and service support easily.

“Our main goal is to simplify the sourcing of our Vending customers,” concludes Mr. Profit. “With this new website, we take that to another level – on demand access to detailed information that is easily searchable and organized in the way our customers think about our products. This site is sure to become a go-to resource for them moving forward.”
