

## SuzoHapp showcases complete sports betting terminal solution

*With the record-breaking growth of sport betting over the past few years and the expected growth over 2021, SuzoHapp is ready to help set up platform developers and sportsbooks for success in the accelerating market with turnkey solutions and peripheral components.*

SuzoHapp is here to assist with hardware integration services and project management in combination with our many partners. With over 60 years of experience in the gaming industry, we have a wealth of industry-specific knowledge to help software companies take their mobile and internet betting projects into retail, in-person

locations by providing a single source for a complete sports betting terminal solution.

Starting with cabinet or kiosk design, we help construct a solution to best suit your space, customer, operating system, and budgetary needs. We then help guide you through the appropriate peripherals such as scanners, printers, CPUs and bill validators to ensure the best value with maximum uptime, proven longevity and lower support costs. We customise each solution to meet the specific needs of the customer with the highest quality hardware, even including

hardware certification. SuzoHapp is a worldwide company with operations in over 19 countries.

As we are a global company, we can assist European companies looking to expand into the USA sport betting market with local contacts on each continent, local knowledge, engineering, offices, warehouses, and production sites.

From designing a concept to assisting with replacement parts or upgrading components down the line, SuzoHapp is the single source for all your sport betting needs.
